THURSDAY, NOV. 2, 1905.

The secret ballot very often de-
fests the results of an election
—to determine the will of the ma-
jority of voters.

It is charged that this ballot
boycott is a common practice in
the 11th Ky. Congressional dis-
trict. That would be done away
with by a return to the viva voce
method of voting.

It is absurd to pretend that the
secret ballot has lessened bribery
in elections. Any one can do a
little inquiry and observe that it has
not that each party spends all the
money in elections to the action of all
parties concerned.

While the weather is getting
cold the election is getting
warmer. A great rain was swelled
the creeks sufficient to make good
boating up Salt river for those who
fail to get there. Ell.—Nov. 7.

You may believe the farmers here
are negligent, but rainy days are
not always keeping them from work.
